

# RADICALS THREATEN TROUBLE IN COAL MINES

## BREWERS OF STATE TO ATTACK "DRYS" FROM NEW ANGLE

WILL SEEK INTERPRETA-  
TION OF RIGHTS OF U. S.  
TO DEFINE INTOXICAT-  
ING LIQUORS.

TO GO TO COURT

Action to Be Started Jan. 1, Is  
Announcement of General  
Counsel.

[BY ASSOCIATED PRESS.]  
Milwaukee, Nov. 13.—Wisconsin  
brewers will attack the "dry" from  
a new angle, probably January 1,  
seeking through the courts to ob-  
tain an interpretation of the rights  
of the federal government and the  
states to define "intoxicating  
liquors."

This announcement was made to-  
day by W. W. Austin, general coun-  
sel for the Wisconsin brewers. At  
the same time he declared that no  
action would be taken to obtain an  
injunction of the federal courts to  
prevent enforcement of the war-  
time prohibition act, as is being  
done successfully by "wet" interests  
elsewhere.

"We do not question the right of  
congress to pass an act enforcing  
constitutional prohibition, but we do  
question its right to define intoxi-  
cating liquors," Mr. Austin said. "We  
admit that congress may pass an  
enforcement act and we admit that  
such an act is unconstitutional. But  
we deny the right of con-  
gress arbitrarily to define intoxi-  
cating liquors under the eighteenth  
amendment. We do admit that the  
state has the power to define intoxi-  
cating liquors and always did have  
it even prior to the adoption of the  
eighteenth amendment. The terms  
of the 18th amendment, taken  
in conjunction with the tenth  
amendment, known as article ten,  
are the basis of this viewpoint, Mr.  
Austin said.

Judge Sustains Wets.  
Louisville, Ky., Nov. 13.—Judge  
Whitaker Evans in federal district court  
today, in effect for the second time  
held wartime prohibition unconstitutional,  
sustaining the federal courts' con-  
stitutionality of the Volstead  
enforcement act and granted an in-  
junction restraining Eldwood Ham-  
ilton, collector of the Louisville distil-  
lery, and district attorney  
W. V. Gregory from interfering with  
the sale by two Louisville distillers  
of their "floor stock" of tax paid  
whiskey.

Illinois Brewers in Court.  
Chicago, Nov. 13.—Attorneys for  
Chicago and Peoria liquor firms seek-  
ing a federal court injunction to re-  
strain federal officials from interfer-  
ing with the sale of liquor in Illinois  
today were ready to present argu-  
ments in the case before Judge  
Charles Carpenter and Pitts Henry.  
The hearing was postponed yesterday  
and the judges took the case under  
advisement.

Ryan Denies Charge  
OF AIRCRAFT GRAFT

[BY ASSOCIATED PRESS.]  
Washington, Nov. 13.—Denial of  
accusations contained in a telegram  
sent to Secretary Baker by Repre-  
sentative Frank W. Ryan, New York,  
today, majority members of the  
House sub-committee investi-  
gating aircraft expenditures was  
made today by John D. Ryan, New  
York, former assistant secretary of  
state, who had charge of aircraft  
production during the war.

The Ryan-Gregory investigation  
charged that Ryan had received  
\$250,000 from the state of New York  
in connection with the purchase of  
the aircraft. Ryan, in his statement,  
said, "covered" the cost of the 36 miles of main  
line railroad but also all expenditures  
made in connection with terminal  
facilities, yards, side tracks and ap-  
paratus of every kind except rolling  
stock."

Potash Bargain with  
Germany Is Broken Off

BRIDES OF COOLIES WARNED

PARIS.—The increasing number  
of marriages between French girls  
and Chinese laborers in France has  
resulted in the minister of the in-  
terior warning French women that  
most of the coolies already have  
wives in China, where upon arrival  
of their husbands they would be  
regarded merely as secondary wives.

## ALL TOGETHER!

Information comes to the Gazette this morning that the committee in charge of selling stock in the new hotel project has a list of prospects made up and that it will start right in to wind up the campaign to raise funds. This is indeed good news for it gives confidence that the new hostelry is not a myth and will soon begin to take concrete form.

It is especially pleasing to business men and citizens generally because their pride in Janesville has been challenged as a result of the delay in getting the project under full swing.

J. A. Craig, president of the Samson Tractor company, at a recent dinner clearly pointed out the necessity for the young men of the city getting back of the various institutions which must be built as the city takes on rapid development.

He declared it the duty of the younger business men to devote their time and energy to the missionary work which must be done, because the older men had already done their share and were entitled to a rest from their labors. Mr. Craig held the view that the great work accomplished by the older men in building a substantial, prosperous city was responsible to a great extent for the excellent foundation upon which the new city should rise. Without their careful control of affairs and their judgment in handling the problems which continually confront a municipality, the task of building bigger and better would be more difficult.

The young men of Janesville can show their worth by getting behind the new hotel. If the committee needs them to aid in winding up the stock selling campaign, they should take this first organized step to see that such aid is forth-coming without delay. The young men are the fellows who are going to benefit most in the next few years by any increased business that comes to Janesville. If a new hotel brings business they will get their share. If anything else, in the making, brings business they will benefit. They should watch every opportunity to see that there is no delay in tackling any of the jobs that have to be done before the city is able to take its place in the great industrial development.

If the city needs better streets—and it certainly does—the business men can demand them. If the city administration needs aid in getting better streets, these same business men can get behind them with their influence. If a better community will result, if recreation places are provided for those who live here, it is the duty of the business men and especially the younger ones to see that sentiment is created for those things. It is their problem. They will reap the results of a clean, well conducted city.

We want a hotel, modern, and large enough to accommodate the hundreds who are turned away every week, as soon as it can be built. We will take pride in seeing it loom up as the first structure which will mark the passing of the old to the new city. It should be a symbol of the spirit with which Janesville tackles her problems. It should reflect the pride which our citizens feel in our city. It is a community enterprise. Let us all get behind it in its embryonic state and when it is finished we can all boast for the next needed institution.

## \$10,000,000 INCREASE IN TAX ASSESSMENT VOTED BY CO. BOARD

MEMBERS ENGAGE IN DE-  
BATE OVER RATE PRO-  
POSED IN EQUALI-  
ZATION REPORT.

An increase of \$10,000,000 in the  
equalization basis for the Rock  
county tax assessment was voted by  
the board of supervisors this morn-  
ing. The board of supervisors of  
the county today was ready to  
present arguments in the case before  
Judge Charles Carpenter and Pitts Henry.  
The hearing was postponed yesterday  
and the judges took the case under  
advisement.

Mr. J. A. Craig, attorney for the liquor  
dealers, based his plea on allega-  
tions that the disputed acts violate  
the fifth and tenth federal amend-  
ments by depriving police power of  
the states and confiscating citizens'  
property without due process of law  
or just compensation and that the  
act is unconstitutional and that the  
judges took the case under  
advisement.

This year's rate for Janesville is  
set at \$18,770,000; Beloit, \$18,820,-  
000; Edgemoor, \$4,070,000; Evans-  
ville, \$4,000,000; Milton, \$550,000;  
and town of Milton, \$1,165,000.

The adoption, however, was not  
made before a wordy contest in the  
board and the city of Janesville  
assessor of incomes, took place. Many  
of the members thought that the  
rate for the county is fixed at too  
high a rate compared with that of  
the cities. A reduction of \$1,600,000  
for the towns and an increase of  
\$1,500,000 for Janesville was recom-  
mended by W. S. Ferrigo of Beloit,  
but ruled out of order by Chairman  
George Hull on the ground that the  
board of supervisors cannot change  
the report of the equalization com-  
mittee, but must either accept or re-  
ject it. The chairman was recom-  
mended to let the rate for cities  
should be higher because farmers  
cannot cover up their property and  
are therefore assessed at a higher  
basis while the business in cities can  
easily cover through manipulation  
of their books.

## CENTRALIA SOLDIER FIRED UPON; I. W. W.'S ALLEGED CRIMINALS

Centralia, Wash., Nov. 13.—George  
Paxton, Centralia, former soldier,  
was fired upon before daybreak to-  
day as he was patrolling a road be-  
tween Centralia and Chehalis, near  
the bridge where the alleged Indus-  
trial Worker of the World was lynched  
Tuesday. Police men on highway  
men and former soldiers searched  
vainly for several hours for the man  
who fired the shot. Paxton was not  
hit.

The man who was lynched here  
Tuesday night was identified today  
as Ernest Everett Smith. The identifi-  
cation was made by a woman who con-  
fided in the rooming house where  
Everett lived for several months. He  
was working here as an I. W. W.  
organizer, the woman said.

Earlier reports had given the  
man's name as "Brick" Smith. It was  
explained that as the man was be-  
ing taken from the jail someone in  
the crowd called him "Brick" and not  
his name but that later he told his  
captors his name was  
"Brick" Smith.

Criminal informations against 25  
members of the Industrial Workers  
of the World have been prepared for  
filing with the county clerk at Che-  
halis today by county attorney Her-  
man Allen alleging either participa-  
tion in or knowledge of the murder  
of four members of the Ameri-  
can Legion during an armistice  
day parade.

The indication that a federal  
prosecution awaited those accused of  
complicity in the shooting was con-  
tained in a statement made by  
Ernest L. Saunders, United States attor-  
ney.

Business activities were paralyzed  
and traffic on the highway danger-  
ous for nearly an hour late yester-  
day afternoon when the supply of  
electric current throughout the city  
was shut off by a power company  
plant time to recuperate from the  
strain of the "peak load." Can-  
dles, lamps, and gas-lights were  
used in great numbers and the con-  
gestion in every section. Until this  
was done the city was in a state of  
total darkness.

That a repetition of the conditions  
after 5 o'clock yesterday afternoon  
cannot possibly be avoided unless  
electricity consumers in all parts of  
the city curtail their use of power  
between the hours of 4  
and 6 o'clock in the afternoon was  
the statement made by P. H. Korst  
of the Janesville electric company  
today. Until the generator now out  
of use is repaired there will be a con-  
stant probability that the power will  
have to be shut off for a few hours  
each afternoon unless conser-  
vation is practiced, he asserts.

He pointed out that if only half  
the usual number of lights are used  
at the same time, the power will be  
sufficient to meet the demand. He  
stated that the load can be reduced  
without breaking. Between 4  
and 6 o'clock is the daily period of  
the greatest consumption of power as  
it is being used at that time in all fac-  
tories and stores in addition to  
homes. It is what is called the  
"peak" load.

Negotiations are now under way  
by the electric company to bring  
power to Janesville from Rockford  
and to the city of Janesville. The  
company to relieve the existing emer-  
gency. Mr. Korst said today.

Three reasons are advanced for the  
lack of power. First, the damage to  
one of the dynamos at the main plant  
making it useless at present. Second,  
no relief is being received from the  
great coal shortage. Third, the grade  
of coal obtainable is so poor as to de-  
crease steam power.

The broken generator at the Fourth  
avenue plant repaired and in action early  
next week. Three dynamos are now car-  
rying the bulk of the city's power.  
Rain and general unfavorable  
weather has delayed the construction  
of the 100-foot bank at the Fulton  
dam. The construction of the plant  
there is now under way.

The company is now burning be-  
tween 30 and 40 tons of coal a day  
and the main plant at Janesville  
is burning between 10 and 15 tons.  
This is an average of nearly  
a year's supply of fuel. It is of a  
poor grade for the reason that the  
company has to secure what was ob-  
tainable after the coal miners' strike  
went into effect, Nov. 1.

Famous Venice Horses  
Again Guard Portals

[BY ASSOCIATED PRESS.]  
Venice, Tuesday, Nov. 11.—The re-  
placing today of the famous horses  
over the principal portal of the basilica  
of St. Marks, was the greatest  
event in Venice since the commence-  
ment of the war. The four horses,  
which are among the oldest of the  
ancient world, and which were  
brought to Venice in the year 1204  
by Doge Enrico Dandolo, were taken  
to Rome during the war in 1917.  
They were being guarded by an  
Austrian detachment. This was the  
second time that the horses were re-  
moved from Venice. Napoleon had  
taken them to Paris to decorate the  
triumphal arch in the place du Car-  
rousel. They were returned to Venice  
in 1815.

## DEMOCRAT CLOTURE TO LIMIT TREATY DEBATE REJECTED

VOTE OF 44 TO 36 CAST,  
ALL REPUBLICANS BAL-  
LOTING AGAINST  
RULE.

PETITION TABLED

Lodge Announces New Effort  
Will Be Made Soon.

[BY ASSOCIATED PRESS.]  
Washington, Nov. 13.—An attempt  
by democratic senators to invoke the  
cloture rule so as to limit debate on  
the foreign relations committee reser-  
vations to the peace treaty failed  
today in the senate.

By a vote of 44 to 36, all the  
republicans present and Senators  
Reed, Missouri, and Shields, Tennes-  
see, democrats, voting in the affirma-  
tive, the senate adopted a motion by  
Republican Leader Lodge to table an  
appeal from a ruling that the demo-  
cratic move was out of order.

The democratic petition for cloture  
had been held out of order by the  
chair because it sought to limit  
debate only on the reservations and  
not on the whole treaty. It was for  
this reason, Senator Lodge said, that  
the republicans opposed the move.

Senator McCumber of North Da-  
kota, prominent among the "reser-  
vationists" on the republican  
side, announced that in a short time  
a cloture rule covering the entire  
treaty would be presented.

Senator Borah, Republican, of  
Idaho, announced that he would  
present a petition for cloture on the  
treaty. The senate voted down, 68 to 4,  
the proposal by Senator Walsh  
(democrat) Montana, to amend the  
cloture rule so as to include the  
league of nations covenant so that  
other nations would be under no  
obligations to aid the United States  
in preserving its territorial integrity.  
Those voting for the proposal were:  
Walsh, Montana, and Pittman, Ne-  
vada, democrats, and Ladd, Idaho,  
Republican, and Norris, Nebraska, re-  
publican.

N. C. 4 MAKES RECORD  
FOR NON-STOP FLIGHT

[BY ASSOCIATED PRESS.]  
Washington, Nov. 13.—Piloted by  
Lieut. Commander Reed, the naval  
aviator, the N. C. 4, which made the  
first trans-Atlantic flight, recently es-  
tablished a non-stop record for that  
type of craft when, carrying 12  
passengers, it flew from Pensacola,  
Florida, to Memphis, Tenn., a dis-  
tance of 535 nautical miles, the  
secretary of the navy announced to-  
day.

Due to head winds a speed of only  
56 knots per hour was maintained.  
The total flying time was nine hours  
and 35 minutes, about nine minutes  
less than the flying time made by the  
N. C. 4 on its flight from Punta Del-  
gada to Lisbon in the trans-Atlantic  
trip.

BREAK IN TOLEDO CAR  
DEADLOCK IS SEEN

[BY ASSOCIATED PRESS.]

an early break in the deadlock be-  
tween the Toledo Railways and Light  
company and the city is seen in a  
conference called for this afternoon  
when the efforts will be made to  
store the street car service suspend-  
ed last Saturday night when the com-  
pany was notified of the results of a  
referendum submitted to the people.

Poland Hopes Elections in

the Poles, as final and that a  
plebiscite is now unnecessary.

## OLD GROW YOUNG

Countess de Porigny.

Recent dispatches dealing with the remarkable success of Dr. Serge  
Voronoof, Russian scientist, in restoring youth by implantation of glands,  
gave Countess de Porigny, his assistant, credit for her invaluable services  
in the work. The countess is an American woman. She was Mrs. Evelyn  
Bostwick of New York and is the daughter of Mrs. Helen C. Bostwick.  
After her marriage to Count de Porigny four years ago the countess be-  
came head of the nursing staff of the entire French army.

## MOTOR TRUCK DRIVER IS ARRESTED, CHARGED WITH MANSLAUGHTER

De Lance Fonda, 335 North Acad-  
emy street, driver of the truck which  
fatally injured Edward Keegan, hus-  
band of Evansville last Friday, was  
arrested in municipal court late  
yesterday afternoon on the charge  
of manslaughter. Fonda is the only  
person arrested on a warrant sworn  
out by District Attorney S. G. Dun-  
widdie.

Fonda entered a plea of not  
guilty and demanded an examina-  
tion which was set by Judge H. L.  
Maxfield for 10 o'clock Nov. 21. He  
was given his freedom under \$1,000  
bail furnished by his father.

Indications point to the case de-  
veloping into a peculiar one because  
of the fact that Fonda is the only  
person arrested on a warrant sworn  
out by District Attorney S. G. Dun-  
widdie.

He says he was going at a slow  
rate of speed, substantiating this by  
saying he stopped the truck within  
four or five feet after striking Keegan.

## PALMER WARNED OF RED ACTIVITIES IN VIRGINIA FIELDS

SITUATION DESCRIBED AS  
"NASTY." RUSSIANS  
HOLD MEETING.

GARFIELD CALLED

Fuel Administrator to Attend  
Conference in Washington  
Tomorrow.

[BY ASSOCIATED PRESS.]  
Washington, Nov. 13.—Activities  
of "radical" threats serious trouble  
in the coal fields of West Virginia,  
according to reports received today by the department of  
justice.

The situation in Monongahela and  
Taylor counties was described by de-  
partment of justice officials as "par-  
ticularly nasty." Meetings directed  
and attended largely by Russians  
have been held in the coal fields  
among the coal miners, the reports  
said.

Fuel Administrator Garfield has  
been invited by Secretary Wilson to  
attend the conference here tomorrow  
between coal miners and operators  
to negotiate a new wage scale agree-  
ment.

More than 200 operators and about  
100 representatives of miners are ex-  
pected to arrive tonight and tomor-  
row morning for the conference,  
which will be called to order by Sec-  
retary Wilson at 1 o'clock.

While the recall order had been  
received in Illinois, Frank Farring-  
ton, district president, said he did  
not believe the union would return  
to work today. He was quoted as  
saying he looked for no general  
resumption of production in that  
field for the present. In Indiana,  
where a similar order was issued,  
scale could not be resumed before  
next week at the earliest.

Decision to leave to congress  
recognition of the financial handi-  
cap incurred from military service  
and a declaration that the American  
legion should be non-political were  
pronouncements made.

By a small majority the delegates  
decided that specific requests for  
legislation should not be made.  
Although demands were made  
for speedy relief for disabled  
veterans and government farms and  
city homes on easy credit terms.

Resolutions adopted relating to  
anti-American propaganda for war  
children of foreign-born par-

Silver Exportation from  
Mexico Strictly Limited

[BY ASSOCIATED PRESS.]  
Mexico City, Nov. 13.—Strict  
limitations upon silver exportation  
from Mexico were placed upon pro-  
ducing companies today by an order  
from the treasury department di-  
recting that 50 percent of all bullion  
be sold to the government. In no  
case will the companies be allowed  
to export more than 50 percent of  
their production. The order resulted  
from the shortage of silver coins  
which because they are high silver  
content, are being hoarded and sold  
for bullion.

Mexico City has been experiencing  
a change in the market for silver  
coins, with merchants refusing to  
accept gold for small purchases.  
Money changers demand from 4 to  
7 percent for exchange.

## 25-CENT INCREASE IN MILTON PHONE RATES PETITIONED

An increase of 25 cents per month in all rate charges is asked for by the Milton and Milton Junction Telephone company in a petition filed with the railroad commission at Madison. Citizens interested in the desired increase are asked to attend the public hearing before the commission, which will be held at the capital at 10 a. m., Dec. 5.

The increase is asked for the reason that "the revenues under present rates are not sufficient to pay the cost of operation and provide for interest and depreciation on plant and equipment." The income account and balance sheet for the nine months ending Sept. 30, 1919, has been presented to the commission, by A. S. Muxson, secretary of the utility company. Monthly rates now in effect together with those asked for in the petition follow: Business—main line, \$2.00; second, \$2.25; four party, \$1.50; five party, \$1.75; main line, \$1.50; \$1.75; four party, \$1.00, \$1.25. The present rate for extensions, 50 percent of rates, is asked to be continued.

It is also asked that a monthly rate of \$1.75 for rural party line service be placed instead of the \$1.25 rate now in effect.

## Cupid Has Been Doing Fast Work in County

3,000 John Reed Cross.

Sheboygan—More than 3,000 Red Cross members have been secured in the big drive. Most of them have been brought in by the pupils of the public schools. Mrs. Harry Thomas is county chairman of the campaign committee.

## Kidney Troubles Vanish With Use of Agmel, Sap of Mexican Plant

New York—Physicians who have tested the sap of the Mexican maguay plant in the treatment of kidney troubles have discovered that an important discovery has been made. Writing in the *Journal of Medicine*, the leading Mexican medical journal, the editor says: "It is perhaps the only substance known up to the present time in the whole world, having the power to radically and permanently overcome Bright's Disease."

Reports of definite results in a large number of chronic and long standing cases of kidney trouble have created a persistent demand for this sap, which is popularly known under the name of Agmel, and considerable quantities are being imported into the United States.

Some of those druggists who might be staid the more progressive and who are constantly on the lookout for something that may be of real benefit for their customers, have already procured a limited amount of Agmel. Such a one is Smith Drug Co., of our local druggists, who will be glad to inform interested persons about it. A free booklet descriptive of this remarkable sap, will be mailed by Agmel Sales Co., 121 Union Square, New York City.

Drop Kicking  
By J. H. Miller

"Spectators appreciate it more than any other kind of kicking," said Walter Eckersall 10 years ago. The same is true of the drop kick today. It is appreciated by the crowds to their feet.

Practice, practice, practice makes drop kickers. Brickley of Harvard once made five in a single game, but Brickley drop kicked every day of the year, fall, winter, spring, and summer.

How to Hold the Ball  
T. E. Jones of Wisconsin recommends that the ball be held as shown in the diagram, left hand on top, right hand underneath. Some kickers prefer to hold it with both hands on the sides. But as "Burry up" Yost says, the main thing is to hold it so that it strikes the ground right. It should strike in an almost vertical position, lace toward the goal, top slanting slightly toward the kicker.

Once the center has snapped the

ball, the kicker should never take his eye from it. He has no time to look around for the goal posts then. He must therefore take careful aim before, so that when he gets the ball he will know the direction in which to kick. Since a slight variation makes a great deal of difference, he should be sure to have poked a smooth piece of ground to kick from.

Two Ways to Kick  
There are two ways to kick the ball. One is to strike it below the center with the point of the toe at the very instant that it hits the ground. The other is to catch it squarely in the instep just as it rises. The former is better for most men.

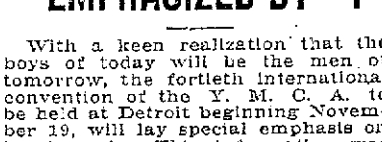

Speed, Height, Direction  
When you practice don't take 40 seconds for a kick. Learn to get the ball away just as rapidly as you must when back of the line of scrimmage. Try to get height so that your kick will not be easily blocked.

Above all try to get accuracy of direction. The goal posts are not nearly as wide as the end of the field. You can learn to kick between them, but there is only one way to do it, practice, practice, practice.

No. 9 Goal in R. C. Drive.  
Neenah—By a speeding up of the Red Cross drive on Saturday, the local chapter netted 1,000 members and the goal of 2,000 is now in sight.

## BOYS' WORK IS TO BE EMPHASIZED BY "Y"

With a keen realization that the boys of today will be the men of tomorrow, the fortieth international convention of the Y. M. C. A. to be held at Detroit beginning November 19, will lay special emphasis on boys' work. This information was received from headquarters of the international committee this morning by J. A. Steiner, general secretary of the local "Y."

While there are 2,577 associations throughout the United States, there are boys' work divisions in but 780 city, county, railroad, and colored associations, and boys' work of some sort is being done in about 1,500. The extension of this work to all of the present associations and the development of the field now untouched is one of the biggest problems to be considered.

The association membership includes 181,600 boys whose ages range from 12 to 18 years, but the work of the association extends beyond the organization itself. The "out-side" work takes the form of employed boys' brotherhoods. Among the highest school boys' work of the association is carried on through clubs known as "H. Y." clubs.

Some of the presidents of these clubs are: Good Hope, brotherhoods and "H. Y." clubs, will attend the convention.

## High School Notes

Report cards were taken home by the students last evening to be signed by the parents.

Miss Delores Kramer is absent from school. She underwent an operation on her tonsils a few days ago.

Senior domestic science girls visited the Best Sugar factory this afternoon in the company of their teacher, Mrs. J. H. Miller.

The students spent the opening exercise in studying this morning.

Allen B. West, instructor in agriculture, who has been ill at his home in Milton has returned to his duties at the high school.

More than 50 students were served at the cafeteria this noon. Creamed potatoes, jello, tapioca, cocoa, and milk made up the menu.

Arthur McEay underwent an operation at Mercy hospital this week. He will not be able to attend school for some time.

## CHILDREN URGED TO MAKE USE OF LIBRARY

This is Good Book week in the public library. Miss Emily Mooser, children's librarian, visited the Adams, Washington, and Garfield schools today, talking on the resources of the library. She will visit the other schools in the city this week.

She gave out application cards to those who have not already cards and invited the children to visit and make use of the library as often as possible.

Saturday the story hour will start. Children of the first four grades are invited. At that time Miss Mooser will tell stories to the children. The stories will begin at 10 o'clock. It will continue throughout the winter.

La Crosse—The high school eleven here, through its manager, has issued a challenge to the Madison high school football eleven to play here on Thursday day. The two teams played a scoreless game at Madison last Saturday.

## Red Cheeks and Pop.

It used to be the fashion for girls to be weak. Femininity was judged by fragility. Now-a-days the table has turned and a girl need not have beautiful features. But she must be vital and magnetic.

The girl who is healthy and athletic should play that won't right living. The girl who is not should get busy and acquire "pop."

To try to conceal your lack of red blood by rouge does not feel good. A good natural color comes from exercising the muscles. Muscles that are not used soften. Hard, well-used muscles make the face look like a pop.

Fresh air is as important as exercise. We fuss about the high cost of living, yet the most valuable thing in the world is free to all, and we do not use enough of it. The open doors is the best beauty builder known. And it is the greatest fun! The girls who spend their spare time out-of-doors show it in their looks, their walk, and their quick thinking.

There are times of the year when out-door athletics are difficult. Then

a girl can open the windows of her room and exercise indoors. If she has a gymnasium at school, it should be kept in mind. There are the indoor sports from which a girl can choose what she likes best—and she can organize clubs for playing them: Basketball, indoor football, handball, gymnastics, wrestling, fencing, swimming, "track."

Don't be an on-looker, girls. Get into action! Appear young and attractive to one to develop the peppiest, most athletic, all-around American girl in your community.

## Dandruff Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it off. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

One of the most beautifully appointed parties ever given in the city was held last evening at the home of Mrs. W. T. Dooley, 108 Academy street, where over 200 invitations were given out. The guests were received on the lower floor by Mr. and Mrs. Dooley, assisted by Mr. and Mrs. John M. Whitehead. As the guests ascended to the upper floors, they were handed little hand-decorated cards, which read, "This night I have invited many a guest, and you among the store, to sup with me, at 9:30, upon the lower floor, (Shakespeare) room, serving by Mrs. Dooley from 9:30 to 11 o'clock. The guests were served in the dining room and on the large heated porch. On the lower floor, a race track has been installed. Everyone was given a bunch of money to bet on the little iron horses that were running around the impassioned track. Pool tables occupied booths near the track. Early in the evening the George Hatch orchestra gave several numbers on the balcony, and later, after which dancing until a late hour was enjoyed in the old rose and gold ballroom on the upper floor. The orchestra was hidden behind a mistletoe and autumn leaves. Punch was served all during the evening at a booth in the ball room.

Mrs. W. T. Dooley, 108 Academy street, was hostess today to the Century Heart Club. Cards were played at three tables. Mrs. Dooley served a supper after the game.

Mr. and Mrs. Irvin Kelm, town of Rock, were given a surprise party last evening. Sixty relatives and friends came, bringing their supper and several gifts. The supper was served at 8:30. The affair was given at the home of their parents, Mr. and Mrs. Henry Kelm. Among the guests was Miss Irene Heagney of this city.

Mrs. Roy Deane, 108 Academy street, gave a 30 dinner last evening in honor of Miss Ida Stinson, East street, whose marriage will take place next week. Ten young women from this city were her guests. A large basket of bitter-sweet occupied the center of the table. The place cards were decorated with the words "bitter-sweet." A few social hours were spent. Miss Stinson was presented with a piece of linen.

About 25 women enjoyed a coffee and supper at the Baptist church last evening as members of the "Good Will Class" of the church. There was an election of officers for the class with the following results: President, Mrs. M. E. Held; vice president, Mrs. M. Sage; secretary, Louise Gowerman; treasurer, Winifred Davis. A short program by the troop of boy scouts belonging to the church was given as a surprise. They sang and recited, and the boy scouts, repeated the oath of allegiance to the flag, and sang a patriotic song.

This is the beginning of the third year of the work of the Good Will class as an organized class. Miss Susan Mayhew and Mrs. John Cunningham arranged for the supper.

Miss Martha I. Gentz, daughter of Mrs. Fred Gentz, town of Janesville, and Otto H. Fuchs, son of Mrs. August Fuchs, of this city, were married Wednesday afternoon at the parsonage of St. John's Lutheran church by Rev. S. R. Fuchs. Mr. and Mrs. Fuchs will make their home at 204 Cherry street.

The Misses Margaret and Mae Farrell, 811 Center street, entertained a company of 12 young women Tuesday evening. It was given for Miss Ellen Mooney, whose marriage to Clarence S. Finley will take place November 25. The feature of the evening was a fortune-telling booth. A lunch was served late in the evening. Miss Mooney was presented with a piece of silver.

Mr. and Mrs. Otto Nehmer, East-end avenue, were given a surprise party a few evenings ago on Mr. Nehmer's birthday. Dancing and music were enjoyed, and a supper served. Among the out-of-town guests were Mrs. Tom McPherson and Mrs. Jay Fuller, Center. It was also Mrs. Fuller's birthday and they celebrated together. The out-of-town guests were over night visitors at the Nehmer home.

HELD HERE SATURDAY

An examination for all persons in Rock county applying for positions as enumerators in the 1920 census will be held at the postoffice here Saturday afternoon at 2 o'clock. It was announced today by Edward J. Schowalter, supervisor of the first district.

The test will consist of filling out a sample schedule of population from data furnished. Enumerators whose work will be in the rural districts will be required to fill out a sample schedule of agriculture in addition to the population schedule.

The taking of the census will begin throughout the country, Jan. 2, 1920. In cities having a population of 2,500 or more the work must be completed within two weeks, while in the rural districts and small towns 30 days is allowed.

AGE OF RECRUITS FOR  
NAVY SET AT 18 YEARS

Word has been received from the naval recruiting office in Milwaukee that young men of 17 years of age will be no longer accepted for enlistments in the navy.

Exceptions are made in the cases of 17-year-old applicants who have previously been promised enlistments by recruiting officers upon obtaining the consent of their parents.

The action of the navy department in discontinuing the enlistments of 17-year-old lads will prevent young men from leaving high school to join the navy," declared commander H. Eriz of the Milwaukee station.

ART LEAGUE PLANS  
TO EXHIBIT PAINTINGS

The Art League is preparing to give an exhibition of the paintings of Mrs. Ella Hotelling Tanberg, which are in the city, before their shipment to California, where Mrs. Tanberg now resides. Mrs. Tanberg was the first president of the Art League and has done much notable work while living in Janesville and afterward with instructors of the Art Institute after her removal to Chicago. Her great interest in the League induced her to give her consent to have her pictures on exhibit before they were sent away. Arrangements will be made by the committee so that they will be on view at the library probably Monday and Tuesday of next week. Mrs. H. D. Mordock is chairman of the exhibition committee. Her assistants are Mesdames T. O. Howe, R. Edden, E. E. McGowan, and J. T. Hooper.

SUGAR BEET ACREAGE  
CONTRACTED FOR 1920

W. W. Woolf, agriculturist for the Rock County Sugar company, has started on a tour of this section to contract for next year's sugar beet acreage. Prospects for a large area are bright, he says.

The local factory contracted for 4,300 acres this season and of this number 2,100 acres brought forth the products. Poor seed and weather conditions are said to have caused the decrease in the quantity.

Mystery in Past Life  
Of Frank Lang, Insane

Mystery shrouds the past life of Frank F. Lang, insane man brought here from Minnesota yesterday by a warden to be committed to the Rock county asylum. He was questioned by examining physicians at the county jail for two hours yesterday afternoon in an effort to determine something about his past life. Although this attempt proved fruitless, physicians learned enough to convince them Lang is of an unsound mind.

He refused to answer questions as to what he was first committed for 17 years ago in anything but a vague

and indefinite way, proving himself to be an ideal witness. He was to be committed to the county asylum by Sheriff Fred Bailey today.

THURSDAY, NOVEMBER 13, 1919.

The Gazette Stands Ready to Support all Endeavor to Make Janesville and Vicinity a Bigger and Better Community.

A SERIOUS SITUATION.

Newspapers of the United States, especially those in the smaller cities, are being compelled to fight for their existence because of the print paper shortage. Each day brings newspapers nearer the point where most radical changes will have to be made to assure regular issues. The small daily sufferer, principally because the bigger news program, in many cases, co-operated in a conservative program.

Editors of most small dailies have cut and slashed the matter which appears in print so that the limited supply of news print would stretch over this period of lack. They have made every attempt to furnish as complete editions as possible and at the same time not waste a single pound of paper. The publishers of dailies in larger cities have not been as careful in culling from their columns features which place a heavy burden upon the paper supply. Sunday editions, particularly, are as large as in the past.

With this condition existing the small newspapers are carrying the burden.

The publisher of the Gazette was called upon to attend a conference of publishers in New York this week at which the paper situation was discussed. He was unable to go upon short notice, but representatives of the Inland Press association, of which the Gazette is a member, were present and submitted a plan which perhaps may relieve the situation in the future.

The Gazette will co-operate with other newspapers in conserving the print paper supply until the situation is relieved. It will endeavor to furnish as complete a newspaper as possible under the circumstances, giving its full Associated Press report, its complete local service, correspondence from surrounding communities and as many of its usual features as it is able to carry under a strict apportionment of space on a percentage basis.

HIGH COST OF LIVING HIGH.

The U. S. department of labor is telling the folks just how much it costs to live nowadays. The department says a man, with an income of \$1800 can support a family of five with comfort. But some rules are laid down for this.

According to the department, a man should wear an overcoat for four years, a raincoat for eight years, and his wife should wear her clothes a like length of time!

And you all laugh!  
It is this feature of wearing clothes that has stamped the American people as extravagant among the nations of the world. But, the American is the best dressed person in the world.

Americans won't wear old clothes, regardless of whether or not the clothes still are wearable. Many a suit is discarded simply because of its style or because it has been worn frequently and is not welcome. It is this that the department of labor calls attention to.

But it is not the American way. Americans would rather spend than save; would rather work harder to make more money than work less and save more.

Americans are the proudest people of the world, and desire to look the part.

And it is this that has boosted the cost of living today.

BOY SCOUTS OF THE WORLD.

The arrival in this country of Maurice Och, head of the Boy Scout movement in Switzerland, to urge the establishment of international headquarters at Geneva, has aroused much interest. Mr. Och says that during the war the Boy Scouts of Switzerland, as of other European countries, rendered splendid service, and they were largely inspired by our own American Scouts, the story of whose activities traveled across the sea. As neutral territory Switzerland received large numbers of wounded soldiers who were cared for by the Red Cross. It was also the host to many civilians who were stranded there awaiting a chance to return to their own countries. In assisting the Red Cross the Boy Scouts made a fine record.

It is suggested that as Geneva is international headquarters for the Red Cross and has been selected as the seat of the League of Nations, it might fittingly be the home of an international bureau of Scouts serving as a bond of union to members the world over. The suggestion appeals to Americans.

When Sir Robert Baden-Powell less than 12 years ago formed the first troop of Boy Scouts he little thought of the proportions this wonderful movement would assume, extending its benefits to all the civilized countries of the world.

GIVE THEM ALL AN OCEAN VOYAGE.

The maudlin-minded will express great and grievous indignation and the parlor-Bolshevik weeklies will spill more salt tears over the deportation of another round-up of Red agitators. Let them rave; they do not deserve our attention.

The foreign agitator is worth exactly as much sympathy and consideration as a bedbug. He has not the least excuse for being here. He would overthrow our government and our form of society, and bring desolation upon all but his own kind. He is an enemy of the nation.

Unfortunately, some of these "borers from within" have completed naturalization, and are claiming their rights under American citizenship. If we have no adequate law at present, we should provide a statute to enable federal judges to cancel the citizenship of these disloyal and unassimilated foreigners.

If the agitators for communism really desire to live in and enjoy the benefits of a socialist state, they should by all means be assisted to get to a country where their sort of ideas have been attained. Russia is the place for them. Many of us would pass the hat and contribute to a fund to provide passage to Russia for native as well as foreign-born revolutionists. Why shouldn't they go to Russia? The rest of us are determined that they shall never have their way in this country.

HIS GIFT TO HUMANITY.

An invention which a French mechanical genius says he has produced, and which he declares promises a revolution in urban transportation may be that or it may be just some clever advertising like the synthetic gasoline which was to give a quadrupled mileage to motor vehicles and didn't.

The French invention is said to be a small machine which weighs only a little more than 100 pounds. It is small enough to be taken anywhere and is said to be able to take to the air from a front door, a back yard, or a cellar or on the sidewalk. If there is anything about this machine it seems to be that it is a very different from the majority of his inventions.

PUMPKIN PIE.

Let all the world run riot in the aftermath of war. Let kings come trembling from their thrones and princes be no more.  
What matters it to me today that times are out of joint? There still exists one golden bliss to which I proudly point;  
The world is sick with madness now, I hear the grumblers sigh—  
But thank the Lord I still can get a wedge of pumpkin pie!

The murmurs of men's discontent are heard throughout the land.  
The strikers mob the factory doors and tollers idle stand;  
No man can tell what lies ahead nor what the morn shall bring.  
The world is topsy-turvy now, but still I smile and sing.

For spite of change and sudden shock and anger's hue and cry  
I still can sit and eat my fill of golden pumpkin pie.  
Let little men still rave and rail and cavil as they will  
Let pessimists with tongues of gloom say all the world is ill.

I'll keep my courage to the last; behind my humble door  
I'll greet my children with a kiss and romp upon the floor.  
And I'll forget the storm outside and let the brickbats fly  
And be content within a world that serves me pumpkin pie.

workers in that he says he will refuse to make any profit from his machine. He offers it as a gift to humanity. But the gift to humanity part of the program seems to be nullified by the report that New York promoters are negotiating for his plans. If the machine gets into the hands of New York promoters humanity may have to wait another century or so for the gift of easy, rapid, safe and cheap transportation.

"Coal Shortage Imminent," says a headline. Wouldn't that freeze you?

Dr. Von Bethmann-Hollweg testifies that his wishes were not followed in the conduct of the war. Those German military and naval heads had singularly small influence, if we believe them. Had they won the war the story would have been different.

As memory doubles back to those midsummer pleadings to buy the winter's coal, the suggestion is inevitable that perhaps it would be well to do the Christmas shopping early.

Many Scotch schoolgirls, so the anti-tobaccoists say, smoke 100 cigars a day. Now let's not be incredulous. The agitator didn't say how many schoolgirls it takes to smoke five packages.

The Gang Insists On Getting Acquainted

# Preserved in Oil

By FREDERIC J. HASKIN, Director  
Janesville Daily Gazette Information Bureau.  
Washington, D. C.

Washington, Nov. 13.—Paintings of the departed American great which decorate the walls of various government departments and of the capitol here in Washington are slowly going to ruin for lack of care, according to H. Q. Seabold, an authority on paintings, ancient and modern.

Mr. Seabold says that the ancient masterpieces of the European galleries would have disappeared long ago if they were not so carefully guarded. The historical portraits in our government departments, he says, are the European pictures, many of which are centuries old and are valued at large sums of money.

Once a year, at least, each of them is given a coat of oil to preserve it from decay. But not so the valuable American paintings. They are allowed to rot and flake until even a cabinet officer can see that there is something wrong with them, and then they are turned over to some artist to be "restored." Usually the artist who gets the job is the one who offers to do it for the least money.

And the work should not be done by artists at all, according to Mr. Seabold. It should be done by expert mechanics specially trained for the work.

Secretaries' Portraits Are Worst.  
The most important of these imperiled government portraits are those of the secretaries of state and assistant secretaries of state in the state department, those of the attorney generals in the department of justice, and those of the secretaries of war in the department of war. It has long been the custom of the incumbents of these positions, upon retiring, to have their portraits painted at government expense, and to leave them hanging on the walls of their offices. It is a perquisite which secretaries have seldom been able to forego. Some have even had their portraits painted in the state department, and a few weeks non-the-less left their likenesses to gladden posterity.

Some of these portraits are really masterpieces of art, and some are masterpieces of honor. All of them, of course, have great historical value, and will have more and more as the years go on. They are really priceless things, and should be treated as such.

One prominent Washington artist who was asked how commissions for government portraits were given out, said that the pictures were politically painted. In other words the artist's chosen through political or personal friendship, or his ability to flatter. However, there seems to be nothing particularly political about that system. In all walks of life artists are chosen to paint portraits for the same reasons.

Some of Portraits Are Poor.  
Some of the portraits are poor but many of them are good and a few excellent. So far, the best of the better known artists represented. Many of the pictures are not signed, and the names of the artists who did them will remain forever buried in the dusty archives of the country. But the name of Herbert Vos will not be one of these. His signature is the last word in painting in the portrait of Richard Olney, as it is certainly the most prominent.

When various dignitaries of the department of justice were tactfully asked what the government paid for preserving the faces of its great in oil, they first looked reproachfully at the inquisitor, and then confessed among themselves at length, and finally decided that it was a secret they would never tell. The war department was more open about it. There it was disclosed that the sum supposed to be allotted is \$750 for each portrait, but that fortunately for one none so good reputations as that of the secretary of state, an extremely meager amount is usually increased. Between one and two thousand dollars is usually paid as a rule.

Some of the correspondence on this subject is interesting, and it is surprisingly voluminous. More bargaining seems to have been done over Mr. Taft's portrait than over that of the others. One man offered to paint a life size bust of him, furnish a gold frame, and maybe throw in the hands of the secretary of state. The offer was refused and as a result Mr. Taft goes down to posterity handless. Two thousand dollars went for a rather poor portrait of the secretary of state, and a can of U. S. paint was given to the artist.

Artist Went to Hospital.  
A telegram in the files from the Secretary of War Simpson shows that the suffering was not all on one side. It says: "My portrait has been painted by Earl Melchers for \$15,000. Mr. Melchers is now in a New York hospital."

James J. Haney, chief messenger of the department of justice, says that his department has the finest portraits in the capitol. Mr. Haney has served under 18 of the 37 attorney generals and says that every one of their portraits is a good likeness, and surely he ought to know. There is a mellowness and richness of tone about these portraits, especially the earlier ones, and a dignity about the poses which makes them some fine specimens of American painting as well as some pictures of line Americans. There is an essential quality of the portrait of Judge Randolph, who was appointed by Washington in 1789. Bradford, the second attorney general, called the ladies' man because of his beautifully kept small hands and graceful pose, makes an interesting picture also. It is said that Judge Olney doubled the price allotted for his portrait when his over pocket so that his face might go down to posterity worthily.

Asides from their artistic value or lack of it, these pictures are priceless as historical records. Indeed one man suggested they are invaluable as a pageant of the backbone of our statesmen, and tell in a most impressive way how the humble collar and the waxed and waned through the years of our country. The capricious colored waistcoat is here also, and eke the lily white. The hand of the public speaker stuck between two ladies' man because of his beautifully kept small hands and graceful pose, makes an interesting picture also. It is said that Judge Olney doubled the price allotted for his portrait when his over pocket so that his face might go down to posterity worthily.

AUTUMN.  
The melancholy days are come—the saddest of the year.  
Of waiting winds and naked woods and meadows brown and sere.  
We've fired the iceman, true enough, as we have oft before.  
But will he melt the ice that's in the coal man's at the door.

There are four seasons of the year when it is hard to save.  
They linger with a feller from the cradle to the grave.  
Spring, summer, fall and winter are the four that tax the purse.  
And when we're in the midst of one we think that one is worse.

# ASK US

The Gazette maintains an information bureau at Washington, D. C., under the direction of Frederic J. Haskin. Questions will be gladly answered on any subject. Those desiring information may write a letter to the Janesville Daily Gazette Information Bureau, Washington, D. C., and enclose a stamp. The letter will be answered by the bureau.

Q. Will gorillas live in captivity?

A. H. The gorilla is difficult to capture and is hard to care for in captivity. The superintendent of the National Zoological park in Washington says that there are no gorillas in captivity in the United States. There was one in the Zoological park in New York but it died recently. There are several gorillas in parks in Europe which are thriving.

Q. What was the salutation upon approaching the emperor of China?

A. D. M. The salutation to the Chinese emperor consisted in the Kowtow, an act of prostration and striking the forehead upon the ground, while speaking the words, which translated means: "Hail, son of heaven."

Q. Who invented the tread mill and is it still in use in British prisons?

A. M. W. The tread mill was invented by Sir William Cuthill, in 1818. It was a severe form of punishment and its use has been gradually discontinued. At the present time there are none in use in England.

Q. What nation won the Olympic games in 1912?

A. B. J. The United States finished in first place with 85 points and its nearest competitor, finished second with only 29 points.

Q. Who wrote "Quo Vadis"?

A. L. O. R. It was written by Henryk Sienkiewicz, a Polish author, who was born in 1846, in Russian Poland. He received the Nobel prize for literature in 1905 and died in 1916.

Q. Give me some facts about the diamond jubilee in Queen Victoria's reign.

A. N. R. P. This elaborate royal function took place in 1897. Queen Victoria proceeded to Westminster abbey from Buckingham palace in her state carriage accompanied by the Crown Princess of Germany and the Princess of Wales, and other royalty. On arriving at the abbey she took her place in the Coronation chair while the archbishop of the clergy conducted service of thanksgiving. Immediately behind the throne were grouped crown members of the family. After the service each of the queen's children in turn went up to her and paid homage.

Q. What percentage of the Philippines are wage earners and what is their principal occupation?

A. S. L. T. A. Nearly 55 percent of them earn their own livings, a large number of the wage earners being women. Of the wage earners about 40 percent are farmers and farm laborers.

Q. What is the smallest republic in the world?

A. B. S. A. San Marino, with an area of three square miles and a population of 10,300 people, is said to have this distinction. It lies between Toril and Tesaro e Urbino, in Italy. Another small republic is Andorra which has an area of 175 square miles and a population of 6,000 people. It has an independent existence under the protection of Spain and France.

Q. How long is a soldier given to re-instate his government insurance?

A. C. P. A. He may renew his government insurance any time within 18 months after the date of discharge provided he is in as good health as when he was discharged.

Q. Why is Saturday observed as the Jewish Sabbath?

A. B. S. A. According to the Bible the Lord created the world in six days and rested on the seventh. As Saturday is the seventh day of the week the Jews observe it as the Sabbath, as do certain other denominations following the old Mosaic law. When Christ said, "The old things have passed away; behold, they become new," His followers regarded this as a command to change the old order and they made the day of His resurrection the Sabbath.

## WIDE AWAKE RIVALRY IN I-C CONTESTS

Though not howling with any very high resulting scores, the competition in last night's games of the Industrial-Commercial league created keen rivalry because of the closeness of most of the scores. The final reckoning showed the Gazette with two victories over Parker Pen, and the Janesville Contracting Co. with two against Varsity Clothing Company's one.

Grove and Hjorth of the defeated Parker bowlers rolled high with 214 and 207 respectively, while Hjorth made high average for the night of 131. Hjorth of the Contracting company was high man in the games with the Varsity, rolling 187. He was followed closely by Klinky with 185. Hjorth led in average with 185.

## Spilling 'em

The Samson crowd seem to be true to the name. They're strong on sports.

The Hub of the City League seems to be the Arcade.

They eat up the Lawrence Lunch, straddle Siegel's Colts, tear up the Gazette and News, ride on the Rails, and are stronger than Samson.

And then somebody wants to know what's in a name.

There's one person we don't envy and that is the referee at the Arcade, especially in his little perch over the collar when the ladder is taken away.

These close games where teams make grand totals differing only in 5 to 20 points have certainly got the fans on their pins.

Margins of over 200 points gave the Electricians of the Samson Bowling league two of its three victories over the Cost and Time department at the West Side alleys last night. The final game, however, showed them to be off form, though they won it.

The Cost fellows started out very poorly with four scores under 100, but they pulled up in the following games.

Hoffman was high with 181, followed by Prots with 173. The best average was Prots, 153.

Goodman's Regulars met the Western Union at the West Side alleys last night and walked off with victory with a margin of 70 pins. Cornell of the Regulars was high with 194, and the average with 194. Two other bowlers went over 200, Zoe of the Western Union team with 210 and Ryan, Regulars, 201.

BADGER X-COUNTRY  
PRIMING FOR MEET

Madison, Nov. 13.—Wisconsin university's cross country team is training for the conference meet to be held at Columbus, O., Nov. 22, a week from Saturday. Teams representing universities from the Big Ten will run, and most of the other prominent schools of the middle west will enter.

Wisconsin has one of the strongest teams in this part of the country, and though defeated last Saturday by the Ames cross country team, the Badgers still have a chance of carrying away the deciding number of points at the big event. The Wisconsin team defeated Minnesota a week ago Saturday.

An interclass cross country race will be held at the Wisconsin university on Saturday, preceding the Ohio-Wisconsin football game.

FLU CAUSES SIX  
DEATHS IN CHICAGO

The weekly bulletin of the health department issued yesterday, shows that six persons died in Chicago last week as result of influenza. Dr. W. A. Evans, health authority and member of Chicago's health board, predicted that the world would again be swept by an epidemic of influenza far more severe than last year, when thousands of lives were lost. One thing is sure, that is, the warm weather this fall has kept the epidemic down, but as colder weather approaches, influenza is liable to break out any time.

Dr. Evans says: No one has as yet discovered a positive method of diagnosing early cases of influenza from alleged "colds." The utmost care should be taken, therefore, not to catch cold, for colds weaken the resistance of influenza germs.

Doctors seem to agree that it is much easier to prevent influenza than to cure it. The secret of preventing influenza is to keep the germs from lodging and developing in the respiratory organs—the nose, throat and lungs. No one should be allowed to breathe in your face because the germs are often transmitted in this manner.

These ingredients can be prevented, last year's results prove that. As a preventive for flu, Turpo has been a pronounced success. Turpo is an efficient germicide, combining the old-fashioned remedies of turpentine, (which has always been known as the best home germicide) camphor and menthol in a pure mineral base.

These remedies have long been recognized as effective germicides, as well as having really wonderful qualities in relieving colds and congestions, germs and colds.

CONCERT PRESENTED  
BY APOLLO CLUB

The Apollo club begins its season this evening with a recital given by the Milwaukee McDowell club. Mrs. Georgia Hall-Quick is soloist. She has appeared in this city before, having been connected with the symphony orchestras of the larger cities for a number of years.

This is the fifteenth year that the Apollo club has been in existence. Each season it presents to the people of this city a series of recitals carrying the best musicians obtainable. Concerts have formerly been given in the McDowell orchestra, Congregational church has been chosen for this evening's concert.

The program for this evening follows: Larghetto, Beethoven; Andante, 18th Symphony orchestra, Tchaikovsky; Concerto, E. Flad; Georgia Hall-Quick and orchestra; Erolic, Grieg; Serenata, Schunick; The Last Spring; Valse, Triste, Sibelius; Autumn and Winter, Glazov.

bellus; Autumn and Winter, Glazov. unow.

Pearl Brice is director of the orchestra. Winogene Hewitt assists at piano and organ.

The concert begins at 8 o'clock. Tickets may be obtained at the door.

Presbyterians Life Debt.

Sheboygan.—The Presbyterian congregation lifted the final debt of \$1,602.31 on its church edifice when \$1,888 was pledged by the church members within a few hours. The balance will be used for additional insurance on the building. The Presbyterians have a community center in connection with their church. A gymnasium with athletic apparatus is at the disposal of the community.
